# BSTS 27

## ASPIRATORE VENTILATORE CENTRIFUGO CENTRIFUGAL FAN

I ventilatori della serie BSTS27 sono particolarmente indicati per il trattamento di fluidi puliti con depressioni piuttosto elevate e portate relativamente piccole.

L'esecuzione standard prevede l'utilizzo di coclee in fusione di alluminio verniciate, giranti a pale chiuse radiali in alluminio, motori elettrici a 2 poli. I fluidi trasportati possono raggiungere una temperatura massima di 70°C. I ventilatori della serie BSTS27 sono disponibili esclusivamente in orientamento LG270.

*BSTS27 series blowers are suitable for clean fluids treatment with quite high depression levels and relatively small flow rates. Standard execution blowers are provided with painted aluminium casings, closed radial blades aluminium impellers and 2 poles electrical motors. Transported fluids can reach maximum temperature of 70°C . BSTS27 blowers are available only in LG270 rotation sense.*

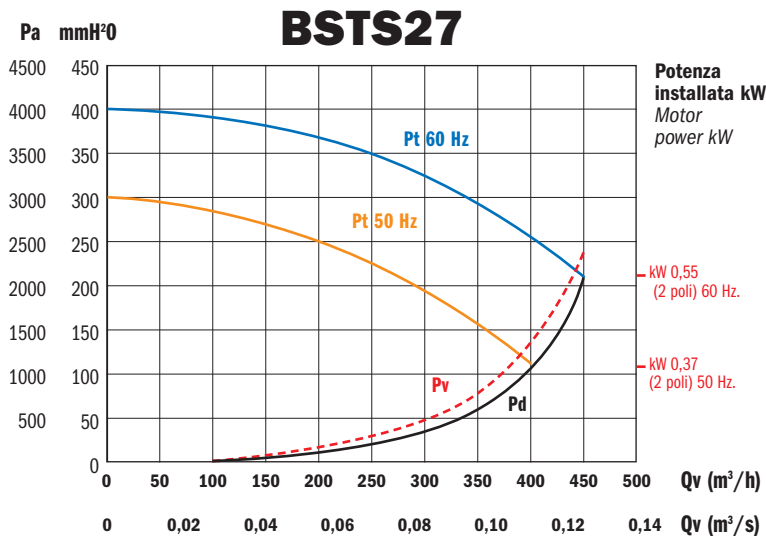

**Orientamento LG 270**
